https://github.com/jjoevv · https://jjoevv.github.io/MyProposal/
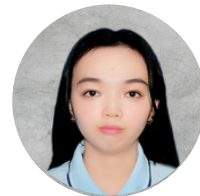

OBJECTIVE

Final year IT student passionate about user-centered design seeks UX/UI Designer internship to apply design knowledge and research skills in creating intuitive, engaging user experiences. Committed to ongoing learning and professional growth in UX/UI field within 6 months.

PROFESSIONAL EXPERIENCE

GRADUATION PROJECT   **Dec 2023 - Present**
Role: UX/UI Designer & Front-end Developer

- Description: A scientific conference search website allows users to search, filter, and track conferences of interest to stay updated on any changes. The application consists of two main roles: user and admin, with the admin role responsible for system management.
- Responsibilities: Gathering and analyzing user data to pinpoint essential functionalities. Crafting interactive designs for web applications using Figma, tailored for both users and administrators. Leveraging ReactJS alongside Bootstrap to efficiently and compellingly develop the user interface.

Interface Design Course Project   **Sep 2023 - Jan 2024**
Role: UX/UI Designer

- Description: This project entails designing the interface for a pet shop website. Its primary functionalities include allowing users to facilitate pet adoption, schedule appointments for services at the store, facilitate pet adoption, and purchase products for pets.
- Responsibilities: Generated concepts, sketched ideas, crafted wireframes and mockups, and leveraged Figma to design interfaces and enhance user experiences.

SKILLS

- **Design Tools:** Sketch, Figma, Adobe Illustrator
- **Hard Skills:** Web design, Mobile design, Data analysis, Graphic design, Front-end development
- **Programming Skills:** Prior experience in React, JavaScript, HTML/CSS, Python

- **Product testing:** gathering and analyzing user feedback, conducting in-person user tests, implementing iterative improvements.
- **Soft Skills:** Creative thinking, Time management, Attention to detail, User-Centric mindset, Independent and Teamwork,
